Marine Grade Polymer

Collections

Marine Grade Polymer (MGP), is a form of plastic called high-density polyethylene (HDPE). MGP will not rot, swell, blister, or delaminate and is a non-porous material and will not absorb dirt, chemicals, or any liquid (including red wine and permanent marker) making it very easy to clean. It holds up in salt water and chlorinated environments without fading or breaking down. It's strength and durability are well suited for commercial environments.

Aluminum Collections

Windward Design Group uses the highest quality materials available for outdoor furniture manufacturing. All of our furniture is manufactured with commercial-grade, domestically milled, extruded aluminum. Many of Windwards extrusions are proprietary and have internal reinforcing ribs to provide the additional strength expected when purchasing a quality, domestically manufactured piece of outdoor furniture.

MGP + Aluminum Strap

Collections

Windward Design Group's strap collections are designed with the ever demanding elements of nature in mind. We use 100% virgin, 2" vinyl and our strap pieces are doubled wrapped around the frame and fastened with nylon solid shank rivets, creating a stronger hold with enhanced reliability.

Commercial Collections

Marine Grade Polymer (MGP), is a form of plastic called high-density polyethylene (HDPE). MGP will not rot, swell, blister, or delaminate and is a non-porous material and will not absorb dirt, chemicals, or any liquid (including red wine and permanent marker) making it very easy to clean. It holds up in salt water and chlorinated environments without fading or breaking down. It's strength and durability are well suited for commercial environments.
